Work Experience

Creating Coding Careers

- Learned and Created many projects using Javascript, ES6, Node, Express, Test driven development, Continuous Integration
- Learned ServiceNow Fundamentals, Portal, Flow Designer, Studio
- ServiceNow CSA certified

Projects ----------------------

ChatApp

- Instant messaging web application, little fun global chat app you can sign in with google or anonymously. Click pepe for music!
- Javascript (ES6), Regex, React, Firebase, Material UI, Moment.js
- https://github.com/snowlizard/chatApp

Vista Portfolio

- Portfolio website made to look like windows vista includes a boot scene.
- Modular components! Adding an app is as simple as importing the window component and passing your own react component and adding that app to the applist. Choose to put it on the desktop or the start menu program list. (work in progress!)
- Typescript, React, Redux, EmailJS, Moment.js
- https://github.com/snowlizard/vista_portfolio (code)

Pokedex

- Simple pokedex mimicking the style of the original Kanto Pokedex
- Made with React, Express, and PokeAPI
- https://og-pokedex.herokuapp.com/

Skills: Javascript, CSS, HTML, Python, React, Redux, Webpack, Node, Express, Heroku

Interests: Building computers, PC gaming, Linux (can't wait for better proton compatibility in games!), Cars, Japan, Anime, Food! Tucson shrimp is sooo good!

Education: Associates in Web Development - 2021, Fresno City College
